Mean (average student responses between 1 and 6) and StandardDev (Standard deviation of student responses) are used for comparison statistics between Teacher, School, Faculty and University.

Comparison Statistics (continued)

Mean (average student responses between 1 and 6) and StandardDev (Standard deviation of student responses) are used for comparison statistics between Teacher, School, Faculty and University.

Raw comment data

The best features of Leo Liu's teaching were

Comments
Kind, understandable
I feel that Leo is more like a friend when I am taking his lecture as his examples and tone are very humorous. I really appreciate that you could answer all of my questions which helps me a lot. Thank you.
He is very patient and kind. He always reply email in time
Interact with students in class, initiate brainstorm to let students have a better understanding of the materials, patiently answer students questions.

Leo Liu's teaching could be improved by

Could you please open your camera all the time:) We want to see your pretty face!
I hope there will be more detailed explanation about how to use Stata and some commands in Stata.
